1998 – 2003 - studied at the National Academy of Fine Arts and Architecture, Sculpture Faculty, Kyiv.

Since 2000 – a member of the Ukrainian Artists Union.

"Works of Oleksandr Kuzmin are interesting and extraordinary with exquisite forms. Manysidedness of his creative personality becomes apparent in passion for both stand and monumental sculpture. His works are different in both themes and interpretations, from scrupulously worked out details to generalized forms. There is combination of dynamics and statics in his works with hidden outburst of emotions inside notwithstanding visible tranquility; or vice versa. Artist easily comprehend typical life moments and that's why his sculptures are so light and lively. Each work of the artist firmly holds space around itself, and the plastic of forms creates interesting silhouettes. His works are modern. They differ by mood, full of inner harmony and outer beauty." Skoblikova Mariya

Oleksandr participates in national and international exhibitions, plain airs, auctions, contests. His works are kept in private collections of Ukraine, Italy, India, USA, Poland, France, Hungary and other countries.
